

## Working Title: Let The World Hear You ROAR

### Series Overview

This is a strategic series designed to communicate for the first time to new family members, reiterate for long standing family members, and reinvigorate the passion for our mission at Revive.

We are a missional church that makes lifelong disciples, growing in authentic community with other believers. It is our heart to be reaching out and impact our community and see every member of our church family participating in the mission. This series will help recommunicate the mission and engage those who are new to Revive.

We also want to communicate the wider theology of mission – missiology and why this is so integral to the Christian walk. Dr John Andrews joins us this series, and will be taking that message.

### Context for visiting speakers:

We are 4 years on from leadership transition and major change as a church, things are going well, and we have a generally happy and healthy church culture. As senior leaders, Ben and Rose are aware that this is the point where we could become comfortable as a church and lose our missional edge. We hope to inspire and challenge our people to be disciples who make disciples and meet the needs of our local and global communities. We have also seen an influx of new family members who aren't aware of our mission and culture, and we want to ensure they catch hold of it, and carry it, rather than there be any dilution of it. It is time to clearly re-state our mission, strategies and values as we lead into a new season.

At Revive we have:
